Red Rock Canyon Campground single sites to move to national reservation system

LAS VEGAS – Visitors may reserve single campground sites at Red Rock Canyon Campground online or by phone for visits starting in 2019.

Beginning October 15, 2018, Red Rock Canyon Campsite reservations for camping dates from January 1, 2019, and beyond can be made at <http://www.recreation.gov>, or by calling the national reservation hotline 1-877-444-677. Reservations can be made up to six months in advance but not less than 48 hours of the desired arrival date. Camping rates have not changed and are \$20 per night for the standard and RV sites, \$10 for the walk-to sites, and \$60 for the group sites.

Currently, only the seven large group campsites at Red Rock Canyon Campground are on the online reservation system; however, 66 of the 80 single campsites will be available on the system for camping starting January 1, 2019. The remaining 14 campsites will be offered on a first-come first-served basis.

Recreation.gov is managed by National Recreation Reservation Service. The NRRS is a partnership between Federal Land Management Agencies to provide quality reservation services for facilities and activities on public lands. Additional information about recreation opportunities at BLM's Red Rock Canyon National Conservation Area can be found at: <https://www.blm.gov/red-rock-canyon-nca>.

-BLM-

The BLM manages more than 245 million acres of public land located primarily in 12 Western states, including Alaska. The BLM also administers 700 million acres of sub-surface mineral estate throughout the nation. The agency's mission is to sustain the health, diversity, and productivity of America's public lands for the use and enjoyment of present and future generations. Diverse activities authorized on these lands generated \$75 billion in sales of goods and services throughout the American economy in fiscal year 2016—more than any other agency in the Department of the Interior. These activities supported more than 372,000 jobs.
